

A wide-angle, high-angle photograph of the Shanghai skyline at sunset. The sky is a mix of blue and orange, with a few wispy clouds. The city is densely packed with skyscrapers. The Shanghai Tower, the tallest building in China, is the central focus, its golden facade reflecting the low sun. To its left is the Shanghai World Financial Center, and to its right is the Oriental Pearl Tower. The Huangpu River flows through the city, with several bridges visible in the distance.
